

*Kaleidoscope Cottage... Because Life is in the Living*

Kaleidoscope Cottage philosophy believes and promotes an individual's pursuit of purpose regardless of a diagnosis of dementia or "stage" in the disease process. Once a person's own search for something meaningful is successful, it not only fills him/her with a feeling of contentment, but it also reinforces a subconscious capability to cope with suffering. This "purpose" cannot be created for a person. It is one's own natural, almost magnetic, pull or desire to "do" something and the reward of satisfaction upon "doing" it.

Real, every day life at the Cottage is full of opportunities for visitors to discover and celebrate such purpose. Just as ordinary life carries potential risk, so too does life at Kaleidoscope Cottage. We recognize our role to align with "Cottagers" to support them in their fulfilment of purpose and to keep them safe. This is a responsibility we take very seriously. We are committed to practice vigilant supervision and we are GPA trained to deflate potentially escalating emotional interactions from becoming situations that may become unsafe for an individual and fellow "Cottagers". We are certified in First Aid/CPR and have had Vulnerable Persons screening police checks.

By signing this document, you understand the value of you or your loved one being truly engaged in spontaneous living, accept the inherent risks and recognize that Kaleidoscope Cottage and its staff will not be held responsible should any misfortune happen as a result.
